April 6, 2020

Dear Students, Staff, Parents & Guardians of the Easton School Community,

I have some news to share that will affect the remainder of the school year. Today, Governor Jay Inslee officially closed all schools in the State of Washington for the remainder of the 2019-2020 school year.

On behalf of the staff and the Board of Directors of Easton School, we realize that this pandemic has had a profound impact on our students and their families, our local community, our state, and our entire nation. We know that many of you are experiencing a tremendous sense of loss right now. In addition to our school being a place of learning, we know the importance of school for students to connect with staff and their fellow students. We really miss being at school with our students and we are committed to providing learning opportunities and support to our students and their families in any way that we can.

We will continue to provide meals to our students and our teachers will continue to make regular contact with our students. As we continue to explore innovative and creative ways to provide remote learning instruction, I would encourage you to share any of your thoughts with us along the way. We want to know what is working well for our students and their families and what we could improve on as we continue to explore ways to provide learning opportunities and support to our students. Please continue to provide feedback to your teachers as they make contact with you.

This is an unprecedented situation that we are all facing and I appreciate your patience and understanding as we continue to navigate these unchartered waters. Please email me anytime at dehuffp@easton.wednet.edu if you have any questions or concerns.

Respectfully,

Patrick Dehuff, Ed.D.
Easton School District Superintendent
